Gilberto Collinassi

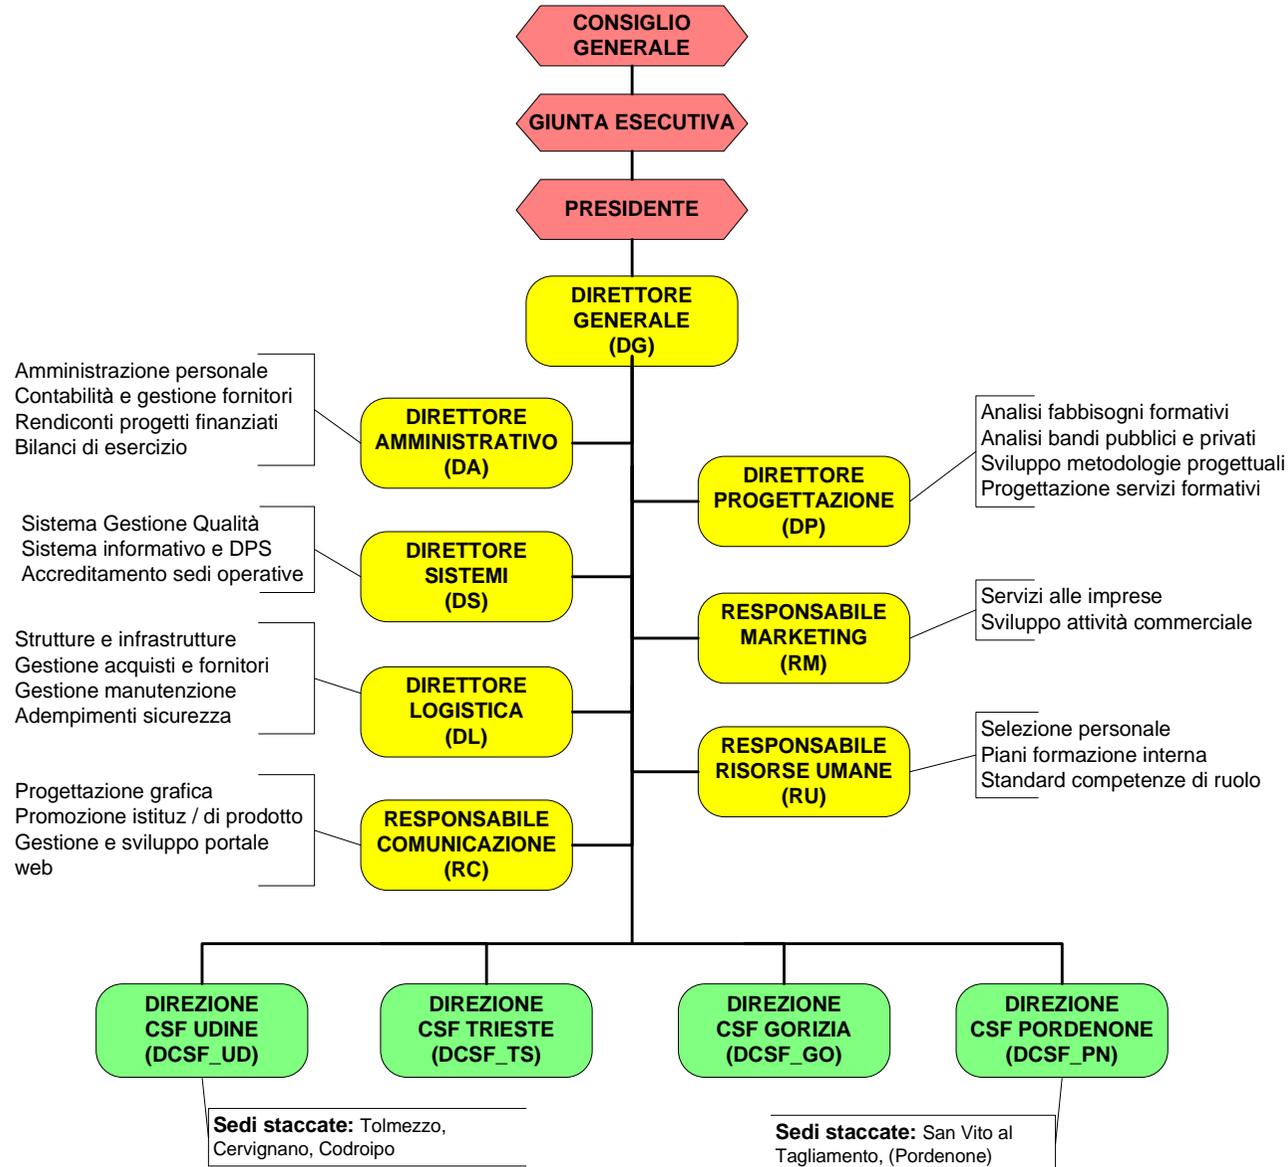

ORGANIZATION

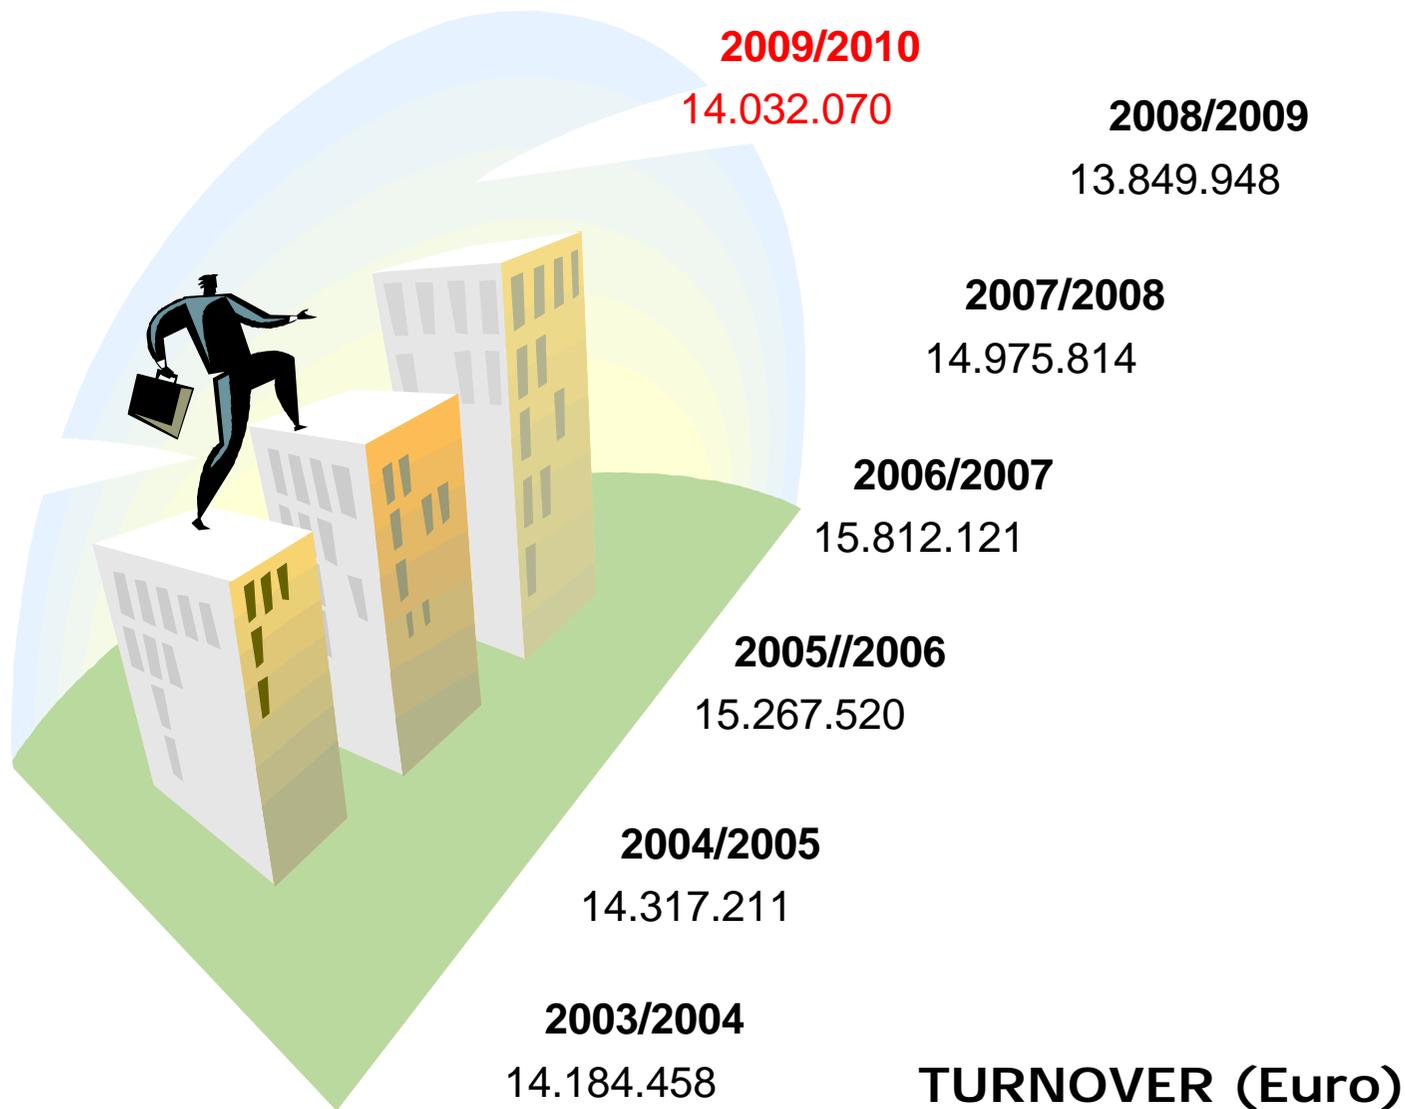

Established in 1979, ENAIP FVG is a private non-profit organization, part of the National ENAIP federation which was founded by ACLI in 1951.

ENAIP FVG applies innovative pedagogic methods and principles to allow people of our region express their full potential, in life and at work.

To achieve this goal, ENAIP FVG relies on the competence of more than 130 employees, including training designers and project managers, counsellors and tutors, coordinators and trainers, technical and administrative staff.

ENAIP FVG collaborates with more than 2.000 external consultants, such as trainers, designers, consultants and researchers.

NETWORK

SHARING TO GROW

NETWORK

SHARING TO GROW

Effe.Pi

ENAI FVG is the leading partner of the regional consortium for all the youth vocational training activities promoted and financed by the Friuli Venezia Giulia regional government.

The thirteen VET institutions which are members of the consortium cover the whole territory and all the training sectors.

They offer basic and advanced qualification courses, integrating their activities and programs with those of the secondary schools of the national education system.

NETWORK

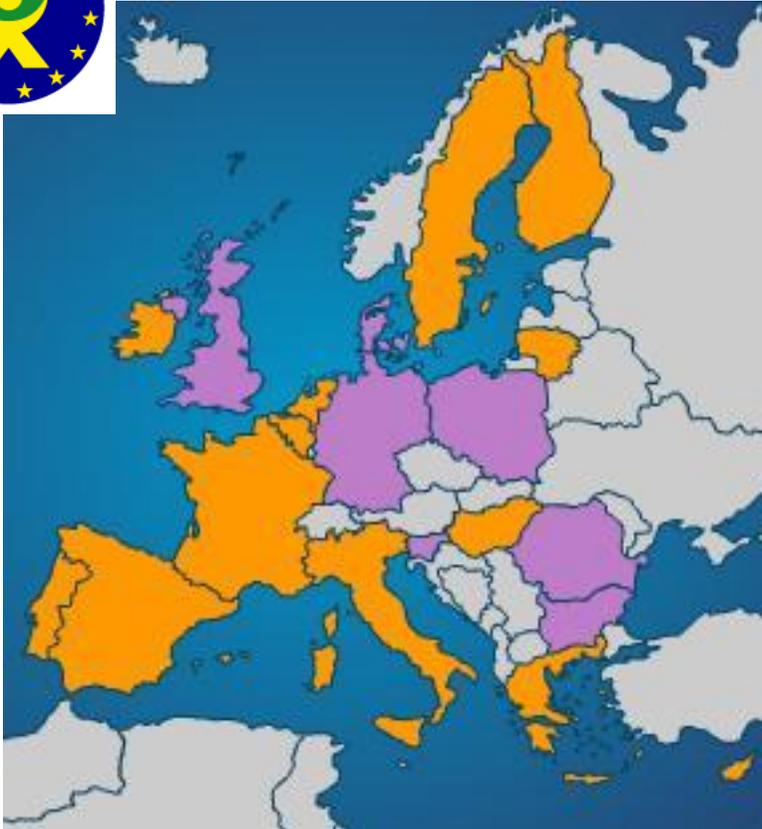

SHARING TO GROW

apprendistato.fvg.it

ENAI FVG is the leading partner of the regional consortium which provides the training services compulsory for workers enrolled with the apprenticeship contract, in the following economical sectors:

- agriculture
- food industry and hospitality
- electrical/thermo/hydro plants
- mechanics
- automotive service and repair
- graphic arts and printing
- sales and marketing
- AutoCAD

The twelve VET centres which are members of the consortium cover the whole territory .

NETWORK

SHARING TO GROW

EVTA

European Vocational Training Association

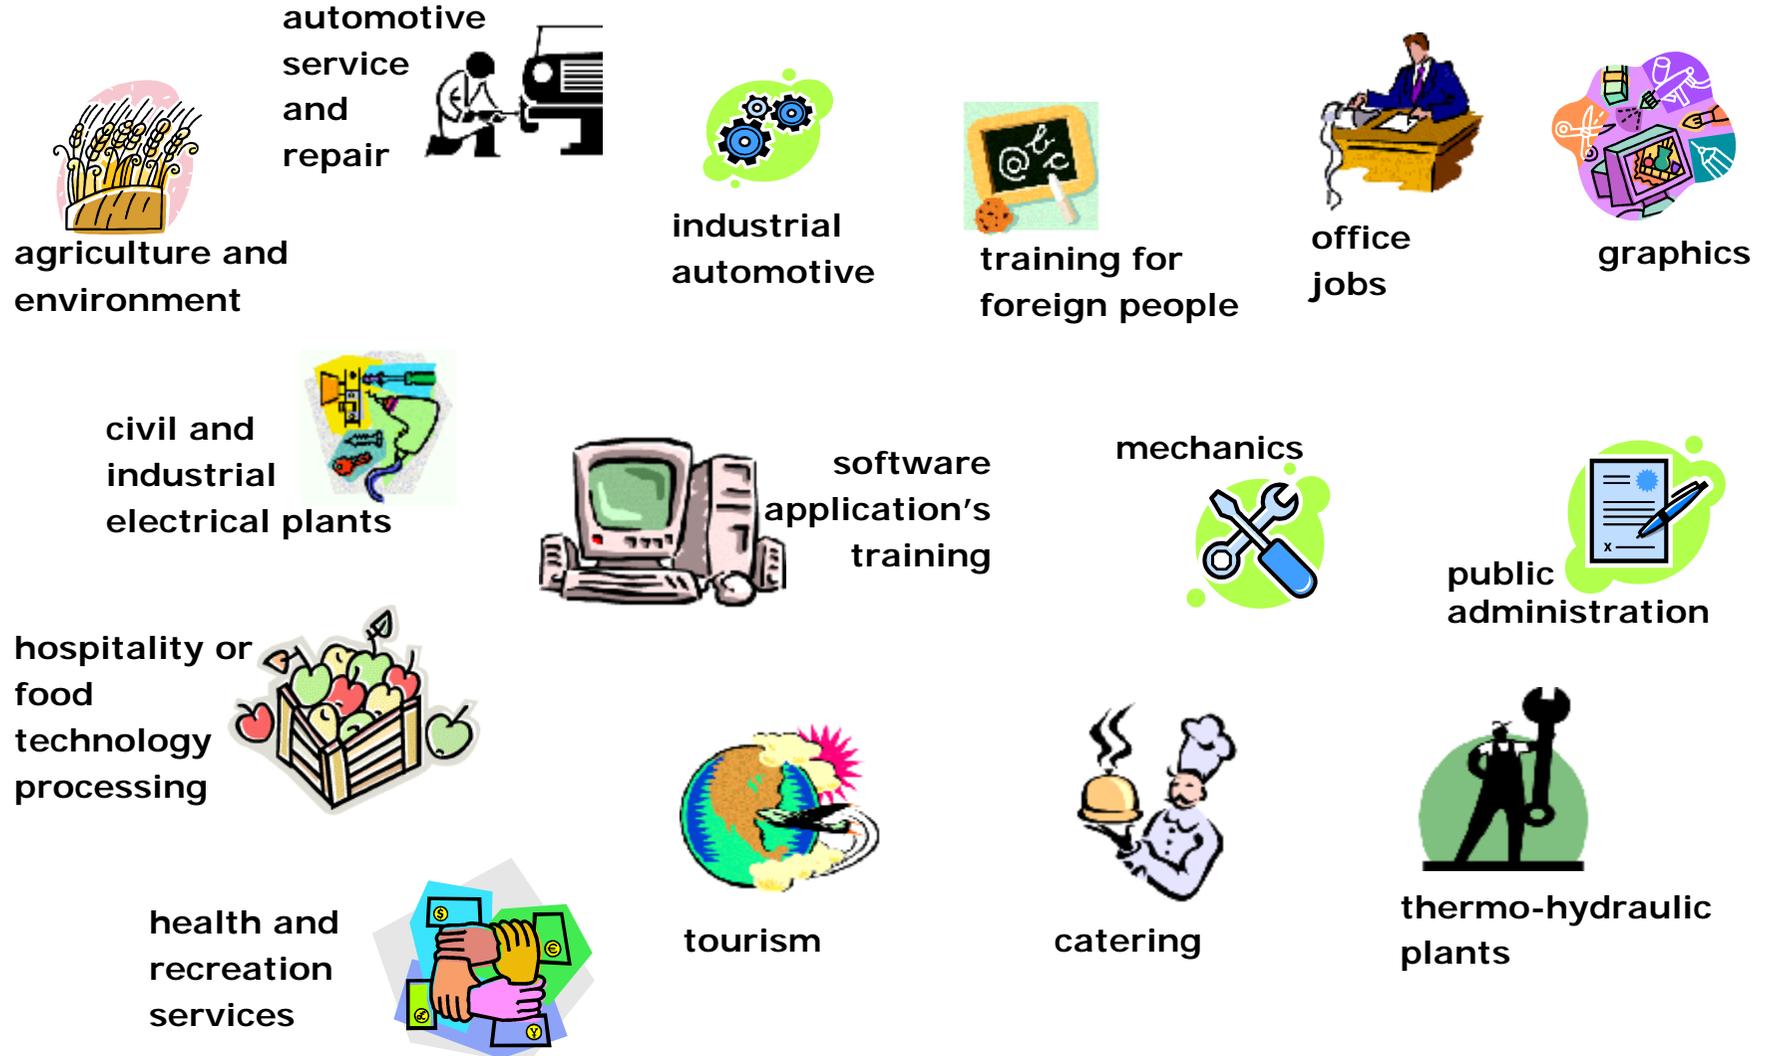

ENAIIP is one of the six founders of EVTA, a network which includes 23 members from 13 European countries, representing national training and employment services.

EVTA's members manage approximately 2.000 regional and local training centres, employ 50.000 trainers, psychologists and advisors, and train more than 1 million people a year.

EVTA supports its members in facing the challenges of growth, competitiveness and social cohesion in the field of Life Long Learning.

TRAINING SECTORS

PROFESSIONALS BY CHOICE AND PASSION

ACTIVITIES CARRIED OUT

BASIC QUALIFICATION

(ISCED LEV 2)

It allows young people (14-18 years old) to gain skills related to a professional profile, so that they can quickly find a job. Courses last 3 years (3.600 hours) and adopt a learning by doing approach: most of the lessons are carried out in laboratories.

A period of workplace training follows, to link the theoretical knowledge to the practical experience.

The result is a professional qualification certificate, recognized at national level, allowing to continue studying in the secondary school system.

ACTIVITIES CARRIED OUT *SHORT BASE QUALIFICATION* *(ISCED LEV 2)*

It allows young people and adults to gain and experiment skills related to a professional profile, so that they can quickly find a job. Mainly targeted at people to whom the traditional education and training activities have been unsuccessful or not suited to.

Courses last 1 year (600-800 hours) and adopt a learning by doing approach: most of the lessons are carried out in laboratories. A training period in a company follows.

The result is a professional qualification certificate, recognized at national level, giving the possibility to continue studying in the secondary school system.

ACTIVITIES CARRIED OUT

APPRENTICESHIP
(ISCED LEV 2/3)

[apprendistato.fvg.it]

It allows young adults and adults hired with the **apprenticeship contract** to attend the on-the-job training activities foreseen by the law.

Each apprentice has about 120 hours of formal training per year in classroom. Each course lasts from 16 to 48 hours, and is delivered in working hours.

The result is a professional qualification recognized nationwide or a training credits certification.

ACTIVITIES CARRIED OUT **ADVANCED QUALIFICATION** **(ISCED LEV 4)**

It allows adults who have a **degree** or **diploma** to deepen the study of specific sectors, acquiring professional skills or clusters of them (corresponding to second level qualifications).

Courses last from 300 to 1200 hours, they foresee a compulsory training period on the job and a strong link with the training needs of the local companies.

Depending on the duration, the courses can lead to a secondary qualification certificate recognized nationwide or to a certificate of attendance.

ACTIVITIES CARRIED OUT *REFRESHER COURSES*

Working and learning nowadays are strictly connected to the personal and professional development strategies people acquire as active participants in a life-long learning approach.

The design of the ENAIP FVG catalogue of refresher courses is based on that assumption, addressed both to enterprises and individual workers interested in their own learning and development for their future.

Courses last from 16 to 120 hours, and refer to professional or basic skills useful for everyday work.

A certificate of attendance is given at the end of each training period.

SERVICES PROVIDED

GUIDANCE

The counselling service provided at ENAIP FVG is based on a thorough knowledge of the labour market, work processes and professions and on a set of guidance tools developed to help people find a clearly defined (educational) pathway to reach their personal and professional objectives and give them a distinct advantage in the employment market.

The ENAIP FVG Guidance and counselling Service staff includes guidance experts, career counsellors, recruitment experts, trainers and is active with counters in Udine, Trieste, Pordenone and Gorizia.

INTERNATIONAL ACTIVITY *BEYOND THE BORDERS*

ENAIP FVG has been carrying out transnational activities in the Vocational Education and Training field since 1993. Some of the more relevant experiences are listed below:

EUROQUALIFICATION: a 4 year project of development and experimentation of transnational professional qualification profiles and courses in the burotics and electronics sectors

G&G Grandparents and Grandchildren: a 2 year project transfer of innovation in the field of digital literacy fostering for elderly people

MAPCOM.: a 2 year project to transfer and develop competence based analysis of the work processes and professional profiles

INFORMATIKA: a 2 year project of development of knowledge management intranet amongst 12 schools of the Slovak Republic

ELEX: a 2 year project about good practice analysis and transfer, and distance cooperative learning management within the EVTA network

Smarteach: pedagogical research project aimed to develop training methodologies based on the use of the IWB in classroom
