# Living with Gypsum

Gypsum provides;

- safety and protection against fire and
- effective thermal and acoustic insulation, every day comfort and convenience to the built environment.
- *Speed and easy* of assembly and finishing mean that constructing with gypsum products is economical and fast.
- The modern interior would be impossible without the versatility of gypsum as a building material.
- Eco-efficiency of gypsum products consist of: low energy intensity, recycled materials, low emission, insulation efficient, impact and fire resistant.
